Having an ImPACT

Every year, thousands of student-athletes sustain concussions through their participation in competitive sports. The hard part for their health care providers, parents and coaches is determining when it's safe for the students to return to play.

The Mountainside Health Foundation and the Brain Injury Association of New Jersey are partnering to launch a "Concussion in Youth Sports Campaign," to raise awareness about concussions among parents and professionals in the athletic, educational and medical communities. The year-long campaign will include the opportunity for local high schools to obtain a computerized concussion management software program, known as ImPACT. The student initially takes a 20 minute test to determine a baseline score of cognitive function. Following an incident, the student retakes the test, and any reliable change in baseline scores is indicated on a report generated by the ImPACT software. The test is repeated at intervals until the scores return to baseline levels.

Training on the use of the software will be provided to high school athletic directors and trainers, as well as community physicians. Educational materials will also be distributed to parents, to raise their awareness of the seriousness of brain injury.

Our goal is to prevent tragedy on the playing field, by using technology and education to guide safe return to play decisions that allow time for the student's brain to heal.

About Mountainside Health Foundation

The mission of the Mountainside Health Foundation is to strengthen health and wellness in communities traditionally served by Mountainside Hospital. The Foundation is an independent, self-governing public charity. We seek to fund new initiatives in health care, by supporting not-for-profit organizations located in the following towns, or providing direct service to these communities: Montclair, Glen Ridge, Essex Fells, Verona, Cedar Grove, Clifton, Bloomfield, Little Falls, Nutley, Roseland, Fairfield, Caldwell, West Caldwell, North Caldwell and West Orange.

Thank you for your generosity and support. Because this is a charitable event, no refunds will be made should the event be rained out. If weather doesn't permit play, participants will still receive gifts, the brunch will be held, and competition prizes will be awarded by random drawing.
